Amazon, CETV, Tencent, IQIYI, Youku, FTP Telecom and Others

Objective

"A fool is the one that never leaves home." - Iceland Saga

Imagination and Adventure!

With inspirations from Jules Verne's "Around the World in 80 Days", let's discover the joy of traveling, adventure and gaming in animation!

In the midst of the pandemic that is forcing everyone inside, the world adventure through the animation series will ignite children's sense of curiosity and imagination while making the world around them just a little bit more accessible.

Children will now be able to travel anywhere, anytime with the friends of their imagination. What if my friend was giant whipped cream? How about a legendary dragon? Let's begin the journey to a mysterious world filled with adventures with the genius inventor, PingPing, and the sweet troublemaker, ChiChi!

Synopsis

An athletic brave boy, ChiChi, a genius inventor girl, PingPing, and their fun lovable friends travel around the world together to complete the quests for the World Exploration Competition and its winning trophy, the Golden Globe. Their interesting and joyful friends are Dogcat: a dog acting like a cat, Dracong: a dragon which is an alien, Saengkeum: a human-formed cream who is always hungry, Sayo: a fox, the world's best cook.

With this bunch, the journey can not be easy! Journeying through the wild unknown places like "The Monster Island with Two Suns", "The Soft Lake", "The Mirror Castle", "The Ghost Ship in the Desert", and "The Chocolate Country", the friends face extraordinary challenges as the hidden secrets of the Golden Globe are slowly revealed. The adventure becomes increasingly fantastical, mystical, and surely more fun as the friends begin to build trust and friendship with one another.

ChiChi

If there's one thing I can't stand, it's sitting still!

He may be a wanderer and a troublemaker with lots of curiosity who never stops thinking, but deep inside, ChiChi is an honest boy who always helps out those in need. He has a natural gift for operating anything from cars to airplanes. Following the encounter with PingPing who instantly sees his potential, ChiChi joins the World Exploration Competition with Dogcat, and begins the journey he always dreamed of.

PingPing

When I have an idea for an invention, I stay up all night!

Her good looks say nothing about her feisty character that even ChiChi can't handle. Like her scientist dad, PingPing is gifted with an extraordinary brain and a talent for invention. She is also an inheritor of enormous wealth and a warming heart. She has been preparing for the World Exploration Competition for a long time to pass the impossible mission that no one has completed yet.

A dog abandoned in a cat village since the birth!

A dog wanting to be a cat with the speed faster than any other cat, Dogcat wears the cat suit and performs the art of Parkour at the highest level. As ChiChi's best friend, he always complains but somehow brightens everyone's mood at the same time. He enjoys traveling around the world and serves as the action specialist in the group.

Dracong

The guardian living in the ancient cave following a riddle-like prophecy

The dragon's family's only successor, Dracong, possesses the explosive fire power coming out of his tail, and yet, he is clumsy and just a little bit eccentric. In the Fire Mountain, he discovers the bewildering skill that he himself was not aware of.

A cooking prodigy who makes the best out of those ingredients everyone refuses

A hidden talent with the artisanship passed down for generations in his family, Sayo is a desert fox and a true culinary genius who never forgets a taste. Sayo is open-minded, thoughtful and calm while worrying too much sometimes. Favored by 'Delicious Country', he holds the golden recipe that is left only to the best cooks. Sayo takes on the journey to try all the dishes around the world.

Saengkeum

Around sweets, his self-restraint is, if anything, adorable.

Saengkeum was born when the chemical compound invented by PingPing to help the growth of plants accidentally was spilled on Sayo's dough. Despite his size, he's easily scared. The sweet, lovely Saengkeum always follows Sayo and treats him like family. He can sound awkward at times, but then again, everyone loves him.

Funybany

The large airship invented for the World Exploration Competition by PingPing

True to PingPing's design philosophy, Funybany embodies a curved line, a colorful exterior, and an adorable face. Inside, there are three spacious floors with a variety of rooms, like a massive hall, a playground, a kitchen and a food storage. It is charged with the emotion recognition system that enables diverse expressions for communication. With these awesome capabilities,

> unybany is surely a reliable resource for the journey.

Banybung | If Funybany's charm is the dazzle, Banybung's is the practicality!

Despite its relatively small size, Banybung is eco-friendly running on solar power with the high-performance engine. Thanks to its mobility, it can also travel in the air and on any ground. It is designed to attach and detach freely to Funybany. As a means of transportation, it does its job superbly.

Over 100 unique characters to meet in a fantasy adventure

More than 100 human, animal, and monster characters such as princesses, wizards, Vikings, dragons, and pirate captains ! A feast of charming characters who laugh, enjoy, and empathize with viewers!

Fish in the sky, birds in the lake Soft Lake Here goes the amazing adventure to a world of pure imagination!

The fantasy adventure taking place in different worlds for each episode will spark children's dreams and imagination!

Where the ancient mummies rest The Pyramid

All made of paper Paper Country

Full of delicious chocolate The Chocolate Country

Everything made of books The Tree of Wisdom

For the cute little bees, The Honeybee Kingdom

The missions become more and more difficult as the season passes! Will the ChiChiPingPing Team be able to win the Golden Globe at the World Exploration Competition?

From March 2022, you can watch ChiChiPingPing in most media such as in cable, general programming channels, and IPTV as well as in terrestrial TV stations including MBC, Animax, Daekyo, and JEI, etc.

Advancement of video distribution and licensing business through global market expansion

Achieved the annual goal of export contracts to the US, China, France, UK, Taiwan, Bulgaria, Vietnam, etc. with ChiChiPingPing TV animation! We will advance our video distribution and licensing business to 100 global markets in 2023.

Business Achievements

Reinforce the brand through the development of various contents and continuous services of ChiChiPingPing IP.

It is necessary to continuously supply new content in order to grow ChiChiPingPing IP into a global kids brand. ChiChiPingPing universe will be expanded to fantasy adventure TV series, new media series for children's song & plays, TV series for physical development dance, etc.
